SURE TREAD
NON-SLIP-GRIT COATING

SURE TREAD is a non-slip coating that cures quickly to a durable soft grit finish. For indoor and outdoor use on tile, wood, concrete, aluminum, steel, fiberglass and virtually any surface where SURE TREAD traction is required. SURE TREAD is easy to apply and can help satisfy OSHA requirements. Help reduce slipping, falling and costly accidents by making SURE TREAD part of your safety program.

GREAT FOR THESE APPLICATIONS:
Public restrooms, stairs, ladders, loading docks, high traffic areas, ramps, entry ways, emergency exits, diving boards, marine applications, pool decks, bathtubs, showers, roof hatchladders, around equipment and machinery warehouse paths or where hazardous slippery conditions exist.

DIRECTIONS:
Surface must be clean, dry and free of rust before painting. Protect surrounding areas from spray mist. For best results, use SURE TREAD when air is between 30°F and 90°F (1°C and 32°C). Shake SURE TREAD at least one minute after rattle is heard and occasionally during use. Spray SURE TREAD with steady even strokes at a distance of 6 to 10 inches (15 to 25cm). Several light coats give a better finish than one heavy coat. SURE TREAD is tack free in 30 minutes and fully cured in 24 hours. If fogging develops, turn sprayhead 1/4 turn or remove and clean sprayhead slot. DO NOT stack tin or other objects in can opening. With can and sprayhead pointing away from person, nearest sprayhead with a gentle twisting motion. To clear sprayhead for future use, turn SURE TREAD upside down and spray for 3 seconds. Completely empty cans may be recycled or disposed of with regular trash. Dispose of partially empty cans responsibly. DO NOT incinerate or compost.
